

# Setareh Seraj

*Ph.D. Candidate in Computer Information Systems*

☎ (646) 640-6891 | ✉ [setareh.seraj@baruch.cuny.edu](mailto:setareh.seraj@baruch.cuny.edu) | 🌐 [setarehseraj](#) | 📍 Manhattan, New York, NY  
Zicklin School of Business, Baruch College, City University of New York

## Education

---

### Ph.D. in Computer Information Systems

2021–2027 (*expected*)

*Zicklin School of Business, Baruch College, CUNY, New York, NY*

- **Dissertation:** “Screens, Stress, and Careers: How Economic and Technological Forces Shape Digital Behavior and Job Outcomes”
- **Advisor:** Dr. Shuting (Ada) Wang
- Expected proposal defense: Fall 2026; expected graduation: June 2027

### M.S. in Management Science and Technology

2019–2021

*Amirkabir University of Technology (Tehran Polytechnic), Tehran, Iran*

### B.S. in Civil Engineering

2013–2017

*Amirkabir University of Technology (Tehran Polytechnic), Tehran, Iran*

**Relevant Coursework (all degrees):** Advanced Quantitative Methods, Multivariate Statistics, Econometrics, Applied Analytical Research, Information Economics, Linear Algebra, Numerical Analysis, Differential Equations, Dynamics, Systems Engineering

## Journal Articles

---

Seraj, S., Wang, S., Cao, C., & Luo, Y. When universities go online: Employment consequences of IT master’s program adoption for bachelor’s graduates. *In preparation for submission to **ISR**.*

Seraj, S. Economic volatility and the dynamics of online reading behavior. *Under review at **Internet Research**.*

Seraj, S. & Hashemi, Alireza. Green in Revenue, Not in Reputation? An empirical investigation of green brand reputation using social media. *Under review at **Information Systems Frontiers**.*

Seraj, S., Nikravan, M., Ramezaniapour, A. A., & Zendehdel, P. (2020). Evaluation of the application of municipal solid waste incinerator (MSWI) ash in civil engineering using a sustainability approach. *Detritus*, 9(March), 113–124. DOI: 10.31025/2611-4135/2020.13922

## Conference Presentations

---

Seraj, S. (December 2025). Economic volatility and the dynamics of online reading behavior. *Workshop on Information Systems and Economics (WISE)*, Nashville, TN.

Seraj, S. (October 2025). Toxic pressure or therapeutic escape? Financial stress and the dynamics of online reading behavior. *Conference on Information Systems and Technology (CIST)*, Atlanta, GA.

Seraj, S., & Lahabi, F. (November 2026). Teaching case auditing AI: Using Excel to detect bias in a hiring system. *Accepted to present at ISCAP Conference*, Asheville, NC; to appear in the ISCAP 2026 Proceedings

Seraj, S., (November 2026). Tracking Green Brand Reputation in Real Time: A Theory-Driven Social Media Approach. *Accepted to present at ISCAP Conference*, Asheville, NC; to appear in the ISCAP 2026 Proceedings

Seraj, S. (2017). Evaluation of the application of MSWI ash in civil engineering. *16th International Waste Management and Landfill Symposium*, Sardinia, Italy.

## Teaching Experience

---

**Instructor of Record**, Baruch College, CUNY (~1,400 students) Jan 2022–Present

**CIS 2200 — Introduction to Information Systems**

Total sections: 7 Total students: ~450

Topics: Core IS concepts, advanced Excel & VBA.

Original AI module (designed and implemented): team-based Excel audit of an AI hiring algorithm for bias and disparate impact.

Avg. teaching evaluation: 4.0 / 5.0

**BUS 2000 Rec. — Business Fundamentals**

Total sections: 43 Total students: ~950

Topics: Business ethics, research methods, applied case analysis project

Avg. teaching evaluation: 4.2 / 5.0

**Recognition (2026):** Zicklin Dean's Teaching Award; faculty spotlight, *The Ticker* (student newspaper).

**Teaching Fellow**, Baruch College, CUNY

Jan 2026–Present

**ECO 1002 — Macroeconomics**

Contributed to the redesign of introductory macroeconomics into a hybrid, workshop-based course combining short asynchronous video modules, repeated low-stakes quizzes, and paper-based in-class problem workshops.

**CyberFellows Online Learning Program**, Baruch College, CUNY

Fall 2025

Technical and instructional support for self-paced online modules (Excel, business software) in multiple asynchronous courses.

## Awards & Grants

---

Zicklin School of Business Dean's Teaching Award 2026

Banerjee Babu Award, Baruch College, CUNY 2026

Doctoral Student Research Grant (DSRG), Round 20, Baruch College, CUNY 2025

Donald Vredenburg Research Grant (DVRG), Baruch College, CUNY 2024

Ph.D. Fellowship, Baruch College, CUNY 2021

National Master's Entrance Exam: Ranked 88th of 30,000 (top 0.3%), Iran 2019

National Undergraduate Entrance Exam: Ranked 664th of 250,000+ (top 0.3%), Iran 2013

## Service

---

Americas Region Coordinator, AIS Doctoral Student College, Association for Information Systems 2026

Ad Hoc Reviewer: ICIS, HICSS, AMCIS 2025–2026

Student Representative, BUS Ph.D. Program — CUNY Graduate Council Executive & Standing Committees 2025

## Research Interests

---

Labor Markets and IT, Social Impacts of IS, Economics of IS, Digital Platforms, Causal Inference

**Methodologies:** Econometric Modeling, Sentiment Analysis, Text Mining, Field Experiments

## Teaching Interests

---

Introduction to Information Systems, Business Analytics, Statistics and Econometrics for Business, AI in Business, Database Management, Programming (Python, R), IT Project Management

## Professional Experience

---

**Affluent Banking Strategy** — Aviense Management Consulting, Tehran, Iran *Jan–Jul 2021*

Analyzed historical client performance data to identify segment-level trends, supporting a banking strategy engagement for a major financial institution.

**India Market Entry Study** — Datis Elevator Co., Tehran, Iran *Jan–Dec 2020*

Designed and executed a market entry analysis of India’s elevator industry, covering competitive landscape and demand assessment for an internationalization decision.

**Platform User Acquisition Experiments** — Bookapo, Tehran, Iran *Jan 2018–Dec 2019*

Designed and analyzed A/B tests on a newly launched book summary platform, examining acquisition and engagement outcomes through platform and Google Analytics data.

**Circular Economy in Construction Study** — Smart Living Lab, EPFL, Switzerland *Fall 2017*

Conducted a systematic literature review on construction and demolition waste supporting a life-cycle assessment of reused structural components.

## Technical Skills
